## Important information

Discount code applies to all tyres in cart and will override National Promotions.

National Promotions may apply a greater discount to tyres in your cart – in this case, do not apply discount code (if already entered, remove code) which will retain the National Promotion discount.

Discount codes must be used for online purchases only and are not redeemable in store.

Bookings must be processed via the Bridgestone website before tyre fitment can be carried out.

Tyres can be fitted at any Bridgestone store Australia wide, that displays online prices.

## Searching for tyres

Not all stores show a price for tyres.

Tyres without pricing cannot be purchased online, therefore discount code cannot be used.

Ensure selected store shows tyre pricing to proceed with your purchase.

'Low Stock' items cannot be purchased

Tyres with 'low stock' cannot be purchased online, therefore a discount code cannot be used.

Ensure the selected tyres are in stock to proceed with your purchase

Also, if a price is not shown it may be a Controlled article, and therefore cannot be used on a Family & Friends discount code.
