

# You never farm alone

Our service goes far beyond simply developing, producing and supplying tyres. Not only do we continuously respond to your changing needs, we are also always there to put our tyre technology, knowledge and experience to work for you.

We sincerely want to build a long-term relationship with you, in an active and personal manner. We aim to be your companion at each step you take and to offer you advice and help...  
**So you never farm alone.**

From traction in the field through performance on the road and higher load, etc, our engineers take all your needs into account thanks to

- their many direct contacts with European farmers
- regular consultation with the major tractor manufacturers

- Dedicated technical Firestone support
- Digital connection at any time through the Firestone app: you'll always know the right tyre pressure for any kind of performance

 Always at your service

 Your needs come first

 Your best buy

- High value at an excellent cost per hour
- Ask your tractor dealer for your Firestone incentive when you buy a new tractor
- 10 year warranty

 Quality you can rely on

Every tyre that leaves our ISO-certified factory is hand-checked by craftsmen.

 Logistics close to you

Our dealers usually have your Firestone tyres in stock. With our excellent, closely linked European logistics network, we can deliver anywhere in Europe within a few days.

 The right tyre

- Firestone dealers help you choose the right tyre for your performance needs
- The Firestone app gives you the ideal tyre specs/technical requirements for your performance needs

## You can always rely on us

Firestone helps farmers to get more out of their land with quality tyres which deliver greater productivity, enable cost-effective operations and minimise the impact on your precious topsoil. Our full range of Firestone tractor tyres gets all your jobs done at an excellent cost per hour.  
**This means that you can save time, fuel and money.**

Firestones tyres' superior casings are renowned for their toughness and durability. Combine this with their wear-resistant compound, and you will enjoy long-lasting tyres that **you can always rely on.**

## High quality standards

For more than 120 years, the Firestone tyre company has always been close to farmers and farming. The agricultural tyre was conceived by Harvey Firestone and has changed farming methods completely.

As part of the Bridgestone Corporation, Firestone today benefits from all the know-how, high production standards and outstanding innovation capabilities needed to stay ahead, and we are continuously adapting our offer to meet your evolving needs, including today's heavier and faster vehicles.

## Designed in Europe and produced in Europe for European farmers

European Firestone agricultural tyres are European to the core. Our engineers at the R&D Centre in Italy regularly consult European farmers and local dealers to ensure that our tyres meet all the needs of European agricultural soil.

All our tyres are manufactured at our plant in Puente San Miguel, Spain. With no protracted overseas transport, we can deliver to our dealers anywhere in Europe within a few days!

## You never farm alone

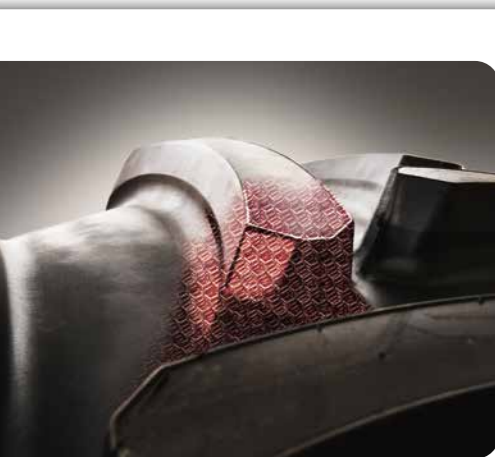

# Firestone

**PERFORMER EXTRA**  
Extra wear-resistant compound. Extra-long life

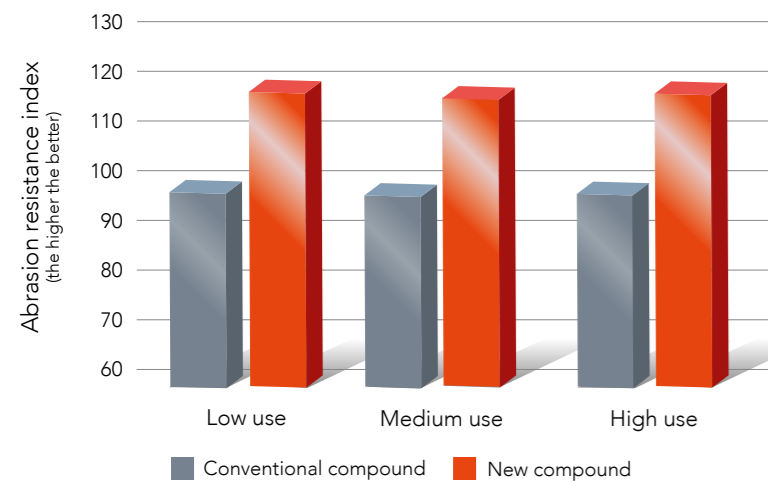

# Extra wear-resistant compound. Extra long life

## New generation compound for longer life

The new generation compound with a more resistant material composition<sup>2</sup> delivers wear resistance that is 20% better than the previous generation.<sup>1</sup>

## Longer life: 20%+ more working hours<sup>1</sup>

(1) Based on controlled lab measurement test (DIN abrader test) (Accelerated ageing testing) conducted by Firestone R&D centre  
 (2) The entire Firestone PERFORMER product range has been made with this new generation compound since the end of 2017

## Rounded shoulders

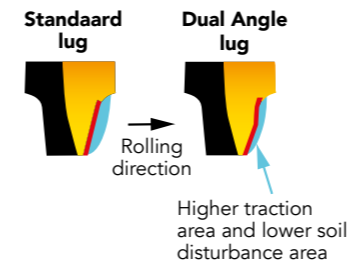

Rounded shoulders deliver smoother ground contact and avoid damaging crops.

**Your benefits:**  
Crop protection

## Patented Dual Angle lug design

Firestone's unique and patented **Dual Angle lug design** results in a greater contact area than a standard lug.

**Your benefits:**  
Superior traction - Higher working output - Fuel saving

## V-shaped lug nose

The V-shaped lug nose facilitates smooth contact with the soil.

**Your benefits:**  
Superior traction - Higher working output - Fuel saving

## Asymmetric lugs

Narrowing the space between lugs ensures that the tyres are self-cleaning.

**Your benefits:**  
Cleaner work - Time saving

## Firestone long-lasting, robust casing

Excellent casing design with extra reinforcing in critical areas.

**Your benefits:**  
Long tyre life - Excellent tyre cost per hour

For medium horsepower tractors. Including vineyard tractors  
For multi-tasking and transport

# Multi-tasking, Multi-benefits

## Longer tyre life

All Firestone PERFORMER EXTRA tyres are produced with Firestone's new generation, high wear-resistant compound<sup>2</sup>. Every Firestone PERFORMER EXTRA tyre offers 20% more working hours than its predecessor and has everything you need for multiple use, day-in, day-out, in any circumstances.

## Proven durability

Firestone tyres' strong, long-lasting casing combined with their wear-resistant compound make Firestone PERFORMER EXTRA tyres extremely durable.

## Efficient self-cleaning

The exclusive asymmetric lug design, together with the smooth base rubber, ensure excellent self-cleaning so that mud doesn't cling and traction properties are maintained. You can cover more ground faster, saving time and fuel.

## High load capacity

Many Firestone products have higher than standard load indices, allowing you to carry heavier loads without compromising your operational speeds. A selected range of tyre sizes have been developed to fulfil the high load requirements of special farming applications.

Download from your app store or just use this QR code:

For iOS app

For Android app

You can also get PERFORMER EXTRA in extra load versions, so that you can carry heavier loads without compromising your operational speeds.
